Professional Summary

Started my journey into the world of tech and PHP back in 2019 as a blogger working on the WordPress platform. In 2021, I decided to try my hand at creating custom WordPress themes going head-first into the rabbit hole of coding and web development.

I am a motivated student seeking career in web development. Hardworking with strong organisation and time management skills. Eager to support and learn from development teams to deliver well-designed mobile and web applications.

Work History

Music Blogger – **tooXclusive**   2019 – 2022

- Researched ideas for posts that received high volumes of engagement from target audiences.
- Grew audiences and site engagement by 200% within 2 years through unique and trending content.
- Enhanced SEO strategy by using keywords relevant to target audiences and building links through other site partners.
- Managed the blog's editorial calendar with superb attention to detail, consistently meeting deadlines.

Frontend Developer – **tooXclusive**   2022 – 2023

- Crafted a solid design system to enforce consistency across the application.,
- Introduced and enforced a consistent coding style across the application.,
- Optimize application for maximum speed and scalability,
- Assure that all user input is validated before submitting to back-end.

Trainee Full Stack Engineer – **IT Career Switch, UK** 2023 – 2024

During my time at IT Career Switch, I learnt the fundamentals of web development, building full-stack applications, and deploying them to the cloud. I strengthened my skills in development and problem-solving by working on real-world projects.
